Special firefighting**Procedures:**

Move container from fire area if it can be done without risk. Containers close to fire should be removed or cooled with water. Cool containers exposed to flames with water until well after the fire is out. Avoid water in straight hose stream, will scatter and spread fire.

Unusual Fire &**Explosion Hazards:**

Vapours are heavier than air and may spread near ground to sources of ignition. May travel considerable distance to source of ignition and flash back. Heat may cause the containers to explode.

Hazardous combustion**Products:**

Fire creates: Carbon dioxide (CO₂) Carbon monoxide (CO)

Protective measures in fire:

Wear self-contained breathing apparatus and full protective clothing.

SECTION 6: ACCIDENTAL RELEASE MEASURES**Personal Precaution in spill:**

Wear suitable protective clothing as specified under section 8 of this Safety data sheet – Exposure Controls and Personal Protection.

Precautions to protect**Environment:**

Do not allow spilled material to enter drains or water courses.

Spill cleanup methods:

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Ventilate. Stop leak if possible without risk. Inform authorities if large amounts are involved. Runoff or release to sewer, waterway or ground is forbidden. Absorb in vermiculite, dry sand or earth and place into containers. Flush with plenty of water to clean spillage area.
