Bird Brand

WELCOME TO THE 2020 CATALOGUE

R. K. & J. Jones Limited remains a family business based in the heart of East Anglia. From the site, Bird Brand and own label products are manufactured and packed to provide an efficient service to a wide range of large and small retailers and merchants within the UK and overseas. As the company welcomes the seventh generations of the Bird/Jones family, development and investment continue apace to ensure Bird Brand offer a relevant, attractive and a wide range of products into the next decade.

CONTENT

We are pleased to be part of the Responsible Care programme which is a global initiative within the chemical industry. It is a commitment to drive continuous improvement and achieve excellence in environmental, health and safety and security performance.

ECOSPIRIT AND SPECIALIST SOLVENTS

Bird Brand EcoSpirit is a powerful alternative to White Spirit and Turps Substitute. It is a blend using low VOC and bio-degradable ingredients that can be safely disposed of down the sink when used.

EcoSpirit removes water based, most oil and xylene based paints from wet brushes, rollers and paint pads and contains a conditioning agent, leaving brushes soft and supple after use.

EcoSpirit can also be effective for cleaning small spills from carpets and clothing. The main limitation is that EcoSpirit is not suitable for thinning paints.

Benefits to solvents

- Lower stable price
- No Odour
- Easily disposable
- Non flammable
- Easier on stains and spills

Safer

- Safer in the home
- Safer for the environment
- Low VOC
- Safer to handle - skin & respiratory

EcoSpirit

A safe alternative to white spirit and brush cleaner

COMPLETE DECKING OIL

Bird Brand Complete Decking Oil gives external timbers a rich lustrous finish that helps protect against weathering using a blend of resins, oils, UV filters and waxes. It brings out the natural beauty of new or restored decks but also gives sheds, cabins and fencing a brighter satin finish.

Other benefits include:

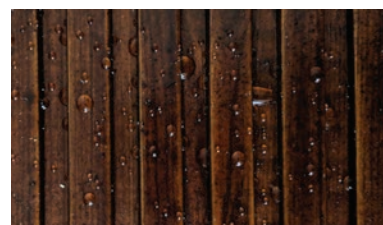

- Harmless to plants and pets when dry
- Natural oils help nourish the wood to prevent splitting
- Slip resistance
- Water repellency
- Approximate coverage per coat is 10-12m² per litre

Point of Sale
pages 32 to 33

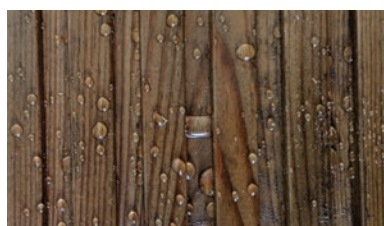

HANDY TIP

Decking Oil can be used after Wood Preservers/Protectors. As the colour shades match! For the best results, we suggest preparing old timbers using the products on Page 19!

COMPLETE⁺ SUPERIOR WOOD PRESERVER

This product provides an all in one solution containing 3 active ingredients (tebuconazole, IPBC & permethrin). It's rich mixture gives wood stain results on smooth timbers with a low satin finish. It's ideal for sheds, fences, summer houses, cladding, garden buildings and will also preserve timbers against wood-boring insects. Also effective in controlling blue stain and other wood destroying and discolouring fungi. Coverage is 3-5m² per litre.

Other benefits include:

- Contains Water repellent agents
- Lower odour but still solvent based
- A higher build finish in a more balanced mix
- Harmless when dry
- Effective woodworm killer
- Brighter colours- but same shades as the Complete Wood Protector and previous Complete Wood Preserver
- HSE approved and BPR listed

COMPLETE WOOD PROTECTOR

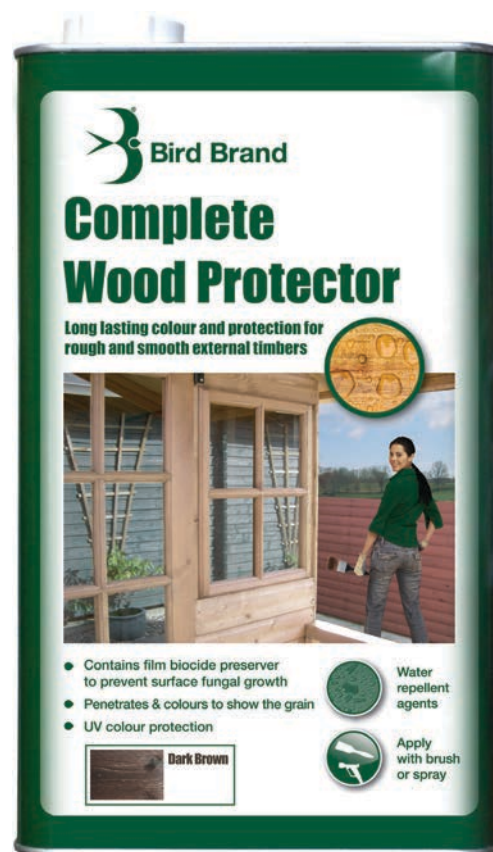

Complete Wood Protector is an economical wood treatment ideal for rough sawn exterior timbers. Although it is not an HSE approved wood preserver, it still protects and penetrates allowing the beauty of the wood grain to show through that decorates and protects sheds, fences, trellis, planters, decking and other exterior timbers. Produced without the binders and resins of the Complete+ Preserver, it's simple formulation will penetrate and protect using boosted levels of water repellent agents. The film biocide preservers also help resist surface fungal growth and prolong the finish and a coat periodically will top up the colour and water repellency. Approximate coverage per coat is 3-5m² per litre on rough sawn timber.

Contains 2 film biocide preservers (IPBC and Propiconazole) to help prolong with the finish and deter surface fungal growth. Same attractive colours as the previous Complete Wood Preservers.

It has the following benefits:

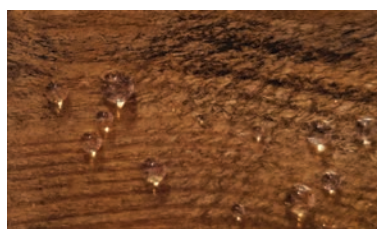

- Low odour solvent base.
- Water repellent
- Economical
- Harmless to plants when dry
- Uses UV resistant pigments

SUPERIOR CLEAR WOOD PRESERVER

Bird Brand Superior Clear is a water based ready to use Complete Anti-Rot and Woodworm Killer. It can be used as a clear primer to preserve before over coating or as a remedial to eradicate woodworm and other wood boring insects. It is based on 3 active ingredients (propiconazole, IPBC & permethrin) within a stable and penetrating water based solution that can be overpainted with a full range of top coat products.

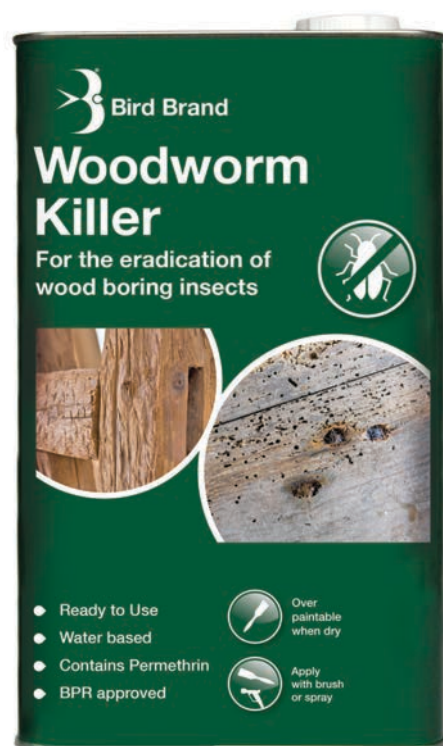

Other benefits include:

- Prevents and eradicates new and in-situ wood against woodworm (and other wood boring insects)
- Prevents fungal attack (dry rot, wet rot and discolouring mould)
- HSE approved and BPR listed
- Milky coloured that dries clear
- For use on structural timbers (outside of the internal living space) including internal window frames and doors
- Coverage 3-5m² per litre

STUD FARM FENCE PAINT

Bird Brand Stud Farm Fence Paint is a specially formulated and environmentally friendly way to protect stud fences and stables from equine chewing and cribbing. It also provides water repelling protection and also long lasting colour performance. Containing carefully selected additives that will safely discourage horses from damaging fencing and stable timbers. These additives are totally harmless to the animals once the wood is dry and is an effective safe alternative to creosote.

ECOSOTE® WOOD PRESERVER

Bird Brand Ecosote® is an environmentally friendly wood preserver and surface biocide for exterior timbers.

Containing the active ingredient Didecyldimethyl Ammonium Chloride; it preserves and protects timber from fungal attack, green algae growth and decay. Although it is water based, it penetrates timber just like a solvent based wood preservative due to its unique formulation.

It can be used on sheds, fences and timber products where a creosote like finish and more importantly a preservative is required. 3 colours are available (Dark, Light and Black).

Key Benefits

- Low Hazard Classification
- Good penetration
- Water based system
- Pleasant low odour pine fragrance
- Non-flammable and low environmental impact

Technical note: Ecosote® is a ready to use aqueous Wood Preservative and Surface Biocide containing Didecyldimethyl Ammonium Chloride.

PREMIUM BARN PAINT

An ideal decorative finish for residential barns. Bird Brand Premium Barn Paint is a water based acrylic paint that can also be applied over weathered Black Tar Varnish, Bituminous Paint and Creosotes. Rather than flake or crack the finish will flex and keep a satin appearance despite UV exposure and intense weathering. It also resists rot and algae build up.

Key Benefits:

- Acrylic Paint
- Rot & Mould resistant
- Satin finish (UV resistant)
- Compatible over Tar & Creosote
- For plastic/metal/wood
- Decorative quality
- Available in Black and White
- Coverage 8-10m² per litre

BLACK TIMBER STAIN

For use on rough sawn timbers including sheds, barns, fences and posts.

Provides a traditional black matt finish that is not intended to dust and fade as much as a Creosote or Bitumen product. It is also compatible over well prepared previously tarred and creosoted surfaces when it can soak into porous/sawn timbers. An affordable solution for car ports, fencing, sheds and non residential barns. On application the gloss finish will turn matt with UV sunlight. Contains White Spirit. Coverage 5m² per litre.

SELECTING 'COMPLETE WOOD' PRODUCT

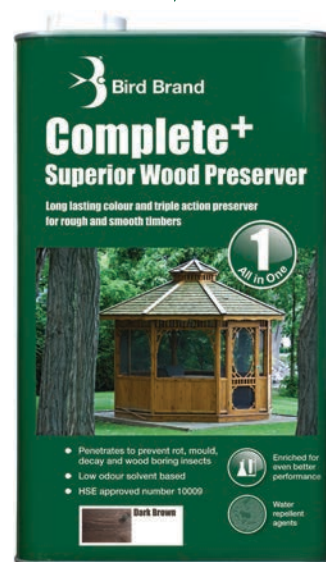

Depending on the application, your answers to the following will point you to the most suitable product. If most of your answers are on the left then the most suitable product to use is Complete Wood Protector. If most of your answers are on the right, then the most suitable product to use is Complete+ Superior Wood Preserver.

YES	Does the wood have rough grain?	NO
YES	Using pre-treated timber?	NO
NO	Job requires an HSE wood preserver?	YES
YES	Is there a lot of timber to stain?	NO
NO	Could woodworm be present or possible?	YES*
NO	Are labour costs (fewer coats) more important than economy?	YES
YES	Do you require a sprayable application?	NO

Shared benefits:

- Both contain biocides to protect and/or preserve.
- Low Odour Solvent based.
- Same colour shades
- Water repellent

Fence Shed Decking Gazebo Cladding Furniture Windows

*Protector can still be used after application. Please see page 18 for Bird Brand Woodworm Killer or Superior Clear Wood Preserver.

USEFUL INFORMATION

EXPORT

We welcome enquiries from all around the world and we wish to develop partnerships with more distributors.

Our experienced export department can assist with most requirements, from pallets to full container loads. They can be contacted at:

export@birdbrand.co.uk

DIRECT DELIVERIES

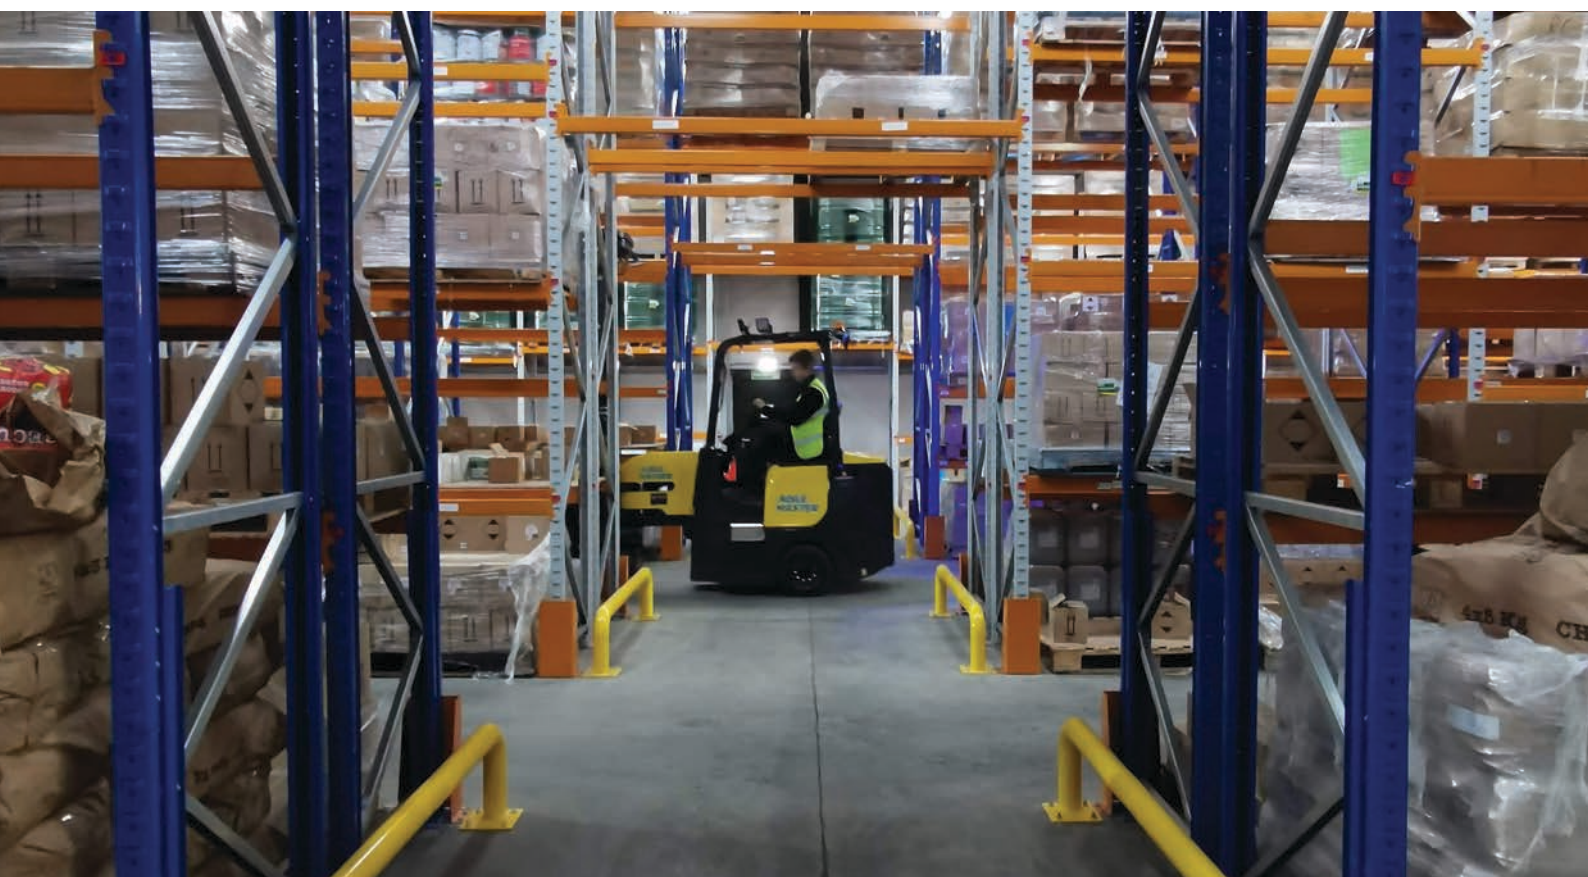

In many UK locations we are able to deliver to customer sites on your behalf. Small case quantities will incur a carriage charge and especially for Hazardous goods but for speed and convenience this is something we can help with. In certain postcode areas, a hazardous service is also prohibitively expensive. Contact the office with your requirements to see what we can do.

OWN LABEL

We appreciate that customers are increasingly looking to raise their brand awareness, especially in the online market-place. We are increasingly able to assist and collaborate in own label projects and can confirm minimum volumes and packaging commitments to develop a long lasting and worthwhile supply relationship.

EXPLANATION OF HAZARDOUS GOODS

Whilst some of our products have no transport restrictions, there are many that are classed as hazardous. The LIMITED QUANTITIES classification is for small pack sizes. However, when the same products are despatched in larger sizes, these are classified as ADR (These items are noted as 'HAZ TRAN' in the catalogue. Any orders containing HAZ TRAN lines means the carriage paid order level is higher. Please contact our office for more clarification or if you need to confirm carriage costs on individual items.
